ON OUR COVER Photography by Steve Young for Russo, Young & Associates.

Hair and makeup styled by Diane Marinelli for Cornerstone Salon & Spa.

Designer Helen Hamann, using Skacei Collection, Inc. Divine, a baby Alpaca, silk and cashmere blend,

silk and cashmere blend, has created this Perudan-inspired tunk. Using a very simple needle weaving technique directly through the stockinette stlich at the hem, a bold geometric design is created. Wear this batwing tunk as mini-dress or pair it with fights this fall, to wear through the winter season. With buttoned side silks, a soft cowl-neck, and overall texture.

After felting

 30 sts x 31 rows = 5½" x 4" in Garter st with larger ndls and MC TO SAVE TIME, TAKE TIME TO CHECK GAUGE.

DESIGNER NOTES

· It is imperative to take a proper gauge swatch, felt it, and accurately measure the felted swatch for gauge. Designer also recommends working 3 separate gauge swatches (larger ndls and MC), felt them separately, and take an average of their after felting measurements to calculate your gauge.

· Felting is not an exact science. Please take your time, and check often the measurements of the piece in comparison to finished measurements on the schematic for shrinkage during the wash cycle.

· Recommendations: Designer found best results with this particular fiber/yarn felting in the COLD wash cycle with regular laundry detergent and a pair of blue leans for agitation. The felting was complete BEFORE a full wash cycle. Please felt a few swatches first before you begin to knit your jacket, to make sure your gauge is correct.

· Once desired level of felting has been reached, lay coat flat to air dry. Once dry, use brush to even out surface.

· Coat is worked from the neck down. Designer recommends using a long circular needle to accommodate the number of stitches, even though body is worked back and forth in rows.

SPECIAL STITCHES

Blanket Stitch Thread yarn onto yarn needle. Insert needle into felted fabric approx 1/2" from

edge, from back to front and pull yarn through. Reinsert needle into fabric from front to back, and pull needle through loop, being sure that varn is below needle as stitches are pulled snugly. Continue working in this manner, working from Right to Left, until entire edge has been worked

ing stitch markers after 110th (Right Neck and Shoulder) and 160th (Left Neck and Shoulder) sts.

ASSEMBLY Join Front to Back

Transfer Back sts onto a working needle. Graft Front to Back starting at cuff and ending at first set of Sleeve markers. Break yarn and rep for other side, leaving neck sts for Front and Back

on stitch holders.

Cuff Facing

With smaller ndl, RS facing and A, beg at RH corner of Cuff, pick up and K28 sts across cuff. Purl 1 row (WS). Purl 2 rows (fold). Next row (RS): Knit. Work even in St st until Facing meas 2" from fold. BO all sts loosely. Rep for other cuff.

Collar

With 16" circular ndl and A, patt across 50 sts held for Front neck, pick up and K2 sts at Right Sleeve seam, patt across 50 sts held for Back neck, pick up and K2 sts at left Sleeve seam, place marker and join [104 sts]. Work even in patt until Collar meas 10" from pickup row. BO all sts using Sewn Bind-Off.

Weaving

With B. C. D. and E each threaded onto a yarn needle, work Woven Stitch (as above) following charts for Front and Back as follows: with piece up-side down, beg at the Hem edge of piece (not including Facing), working back and forth until St st portion of Body is covered, leaving 18 sts each from edges of Back and 14 sts each from edges of Front without embroidery [to later become pleats]. If your hips are smaller than the pattern allows for, you may want to reduce the number of sts to be embroidered on each side of each chart to create a larger pleat and tighter fit around the hips.

FINISHING

Sew underarm seams. Fold cuff facings in and secure them with a whip stitch. Fold in hem facing on Front and Back and secure (as above. Weave in all loose ends.

Wash pullover in cold water with a mild soap or hair shampoo and rinse with a conditioner. Allow garment to dry flat. When still slightly damp, gently block with a steam Iron.

Button Loops (make 6)

With A and dpns, make an I-Cord as foll: CO 3 sts leaving a 5" tail. "Knit 1 row, sl sts to RH end of ndl: rep from * until I-Cord meas 21/2". BO all sts. leaving a 5" tail.

Side Pleats Fold pleats on Front and Back at beg of embroidery edging inwards. On LH side of Pulover, at WS of Front, secure (2) I-Cords approx 1" from top and bottom of embroidered section, and 1 I-Cord between them. Close and secure pleat so that embroidery on Front slightly covers embroidery of the Back. Secure buttons opposite I-cords. Rep for RH side.

· Placement chart shows stitch pattern for each section, as well as width (in sts) and length (in inches). Center 2 sts are kept in Mock Cable. do not include these in bind-off. · BOB is a method of binding off, then pick-

ing up sts that causes the 'chain' of the boundoff stitch to lie on the front of the piece, perpendicular to the direction of the work.

· When picking up for Row 2 of BOB, make sure st count remains constant. It is very easy to miss the last purl bump of the previous row. When picking up sts for saddle shoulder join. do not use a separate strand of varn. Simply pick up a loop from each bound-off shoulder

DESIGNER NOTES

· Yarn for project can be purchased as one 16oz "Giant Skein" from Hand Painted Knitting Yarns. The Giant Skein contains 55 yds each of 12 different yarns. Alternating a smooth and a textured yarn provides an attractive contrast.

· Join a new yam wherever the previous one runs out rather than at the beginning of a row. Be frugal with ends when changing yarns about 2" is fine.

· Both Fronts and the Back can be worked in corresponding or contrasting sequences of yarns. If the knitter desires corresponding sequences, count how many rows a yam produced below the armhole and knit the same number of rows of each yarn in the fronts and back.

DESIGNER NOTES

· Standard Sheared Beaver Yarn is available from Fur Yarn by Paula Lishman in a 50g (25 vd) ball and a 30g (15 vd) ball. One of each ball will make this project.

. Scarf is knit in 7 row and 5 row sets, with

the fur row set up in a purl bed between rows of St st in cotton. When not in use, fur should be carried up sides of scarf.

· To join two balls of fur, separate cotton spinning from fur strand. Trim a little fur off the hide. Place the trimmed end against the leather side of the other strand. Using a Glover's needle and sewing thread, go through the first strand and come up through both strands. Rep a few times, making sure not to go through the same hole twice as the needle may cut the thread. Tie thread in a knot. Tie cotton spinning together.

· Cotton slub and beaver yarn are available in kits from Fur Yarn by Paula Lishman.

Lightly tack the piece of tulle/mesh fabric between the back and the pocket fabric to prevent the pieces from felting to each other. Place the bag in a large mesh laundry bag and the 1-cord in a different mesh laundry bag. Fill washing machine at the small load setting with hot water, a small amount of mild soap, and the two mesh bags. Agitate until the bag width is 17" (I-cord should felt to approx 37"). There may be some curling of the top edges. Flatten the bag, tolding the front like a grocery paper bag. Pull flat the edges and allow to air dry. Lay I-cord flat to air dry. Please note that the dimensions given for before and after felting can change depending on the water temperature, type of agitation, and type of yarn. Felt until stitch definition is gone and the fabric thickness is what is desired. The labric that results for this bag is thick ensuring the finished bag is sturdy and will hold heavier items such as a laptop.

Attaching I-Cord Fold the I-cord in half and cut in two lengths of 24" each. Fold each end 1" under and sew firmly in place with heavy-duty thread the same color as the bag. Using the photo as a quide, position I-Cord under bag, evenly distributing halt the I-Cord on Front and on Back. Pin I-Cord In place 41/2" from outside corners. Stitch I-Cord in place with sewing needle and same heavy-duty thread. Rep for other end of bag. Attach the leather straps in loops tormed.

Closure

Attach magnetic purse snap close to the center front of the Ilap. Attach the snap back to the front body. Sew on a decorative button to cover the clasp as optional finishing.

Optional Lining

The inside of the bag can be lined as desired. Note: For added durability, place lightweight foam or leather pieces on inside of bag & sew through all layers (I-cord & backing). This type of sewing can be done at most shoe repair or alteration/tailor shops.
